

Dear colleagues,

The Prague School on Flow Cytometry has been successfully running since 2014 under the auspices of the European Society for Clinical Cell Analysis.

- The Prague course is informal, open and convivial
- The Prague course is held in English
- The Prague course is interactive and practically oriented
- The Prague course is conducted by distinguished international speakers
- The Prague course includes state of the art protocols, panel designs, analysis strategies, interpretation and validation following ESCCA/ICCS, ELN, ERIC and EuroFlow guidelines for diagnosis and follow-up of hematological malignancies
- The Prague course includes guidelines for CLSI H62 validation and ISO 15189 accreditation
- The Prague course guarantees training for ESCCA Certification Operators and Specialists
- The Prague course enables 1-year free participation in ESCCA Interlaboratory Comparison Program (EILCP)
- The Prague course offers updated and new topics
- The Prague course has high rating from participants
- **X Prague School on Flow Cytometry 2023 will run online and onsite if requirements for onsite registrations are met**

Course manager: Iuri Marinov, MD, PhD

Contact for application: iuri.marinov@uhkt.cz ; marinoviuri@gmail.com

The official information for the course will be available at the ESCCA official website
